

**\* ToolVIEW pictured without work bench. Sturdy steel work bench is included in the package.**

ToolVIEW is a high-quality visual inspection system comprised of specialized pieces of equipment. Tooling can be inspected and dimensionally checked using the digital microscope. The digital microscope also has the capability of capturing images of the tooling that can be saved to the computer for later reference.

## ToolVIEW Benefits

- Combines individual pieces of inspection equipment into a compact system
- Manual Inspection or digital measurement
- Innovative Die Holder allows for radial viewing

## ToolVIEW Package

- Complete Hardware and Digital Microscope Software Computer Package
- Digital Microscope at 10~50X,200X
- LED Magnification Lamp at 2.25X
- Tool Rest for Large, Round or Odd Shaped Parts
- Maple Table Top and Bench
- Innovative, Adjustable Die Holder
- Operator Manuals
